

7X TABLE

TO PLAY THIS GAME YOU NEED:

AIM: Be the first to get 4 of your coloured counters in a row – horizontally, vertically or diagonally.

HOW TO PLAY: Pick a set of coloured counters each and decide who plays first. Players take turns. On your turn, pick a number from one of the molehills. Multiply it by 7 and then cover your answer on the grid with one of your coloured counters. If the answer is already covered, your turn ends.

70	14	21	49	28	56
49	35	56	63	84	42
21	56	42	63	28	49
77	63	84	56	21	63
49	56	42	14	49	56

Dig's Questions:

1.

What is the product of 2, 4 and 7?

2.

What is the square of seven?

Challenge:

There are many ways to work out times tables. 8×7 is the same as doubling 4×7 . Can you write different ways of working out numbers in your 7 times table?

Dig's Tips:

“Practise this game regularly. You should be working towards knowing your 7x table with out using your fingers or counting in 7s. You can use dice to practise too: Roll 2 dice, work out the sum and multiply it by 7 as quick as you can.”

Years 1 to 6 - Maths Activities & Games

Over 400 curriculum-aligned maths games providing an engaging and fun way for children to practise the maths skills learned in class

- Supporting **every Number target** in Year 1 to 6
- **Easily incorporated** into existing lesson plans
- Game format enables children to play with maths **together**
- Use in class or as home-learning exercises
- Available in year-group, key stage, and individual topic packs

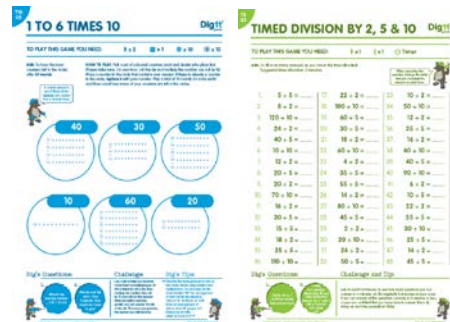

Times Tables & Division Activities & Assessments

Downloadable PDF resource!

A comprehensive and engaging system of games and assessments that steadily progress children through the times-tables.

- Incorporates division alongside multiplication activities
- Regularly refers to previously completed tables in order to constantly refresh knowledge
- Assessments and Progress trackers are included
- A resource that families can also access!

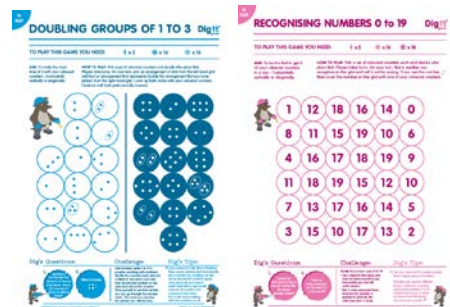

Reception Games & Activities

Downloadable PDF resource!

Helping Reception teachers make children's introduction to maths an enjoyable and fun experience.

Focusing on:

- Number recognition
- Counting & estimating
- Simple addition & subtraction
- Number bonds

Dig1t Deals - Metrics card game (age: 7+)

A card game that requires players to convert different units of measurement as well as practising children's multiplication and division skills.

Measurements include decimals and fractions!

- **Length:** Millimetres (mm), centimetres (cm) and metres (m)
- **Weight:** Kilograms (kg) and grams (g)
- **Capacity:** Millilitres (ml) and litres (l)
