AIM: The first player to complete their copy of the Christmas tree is the winner.

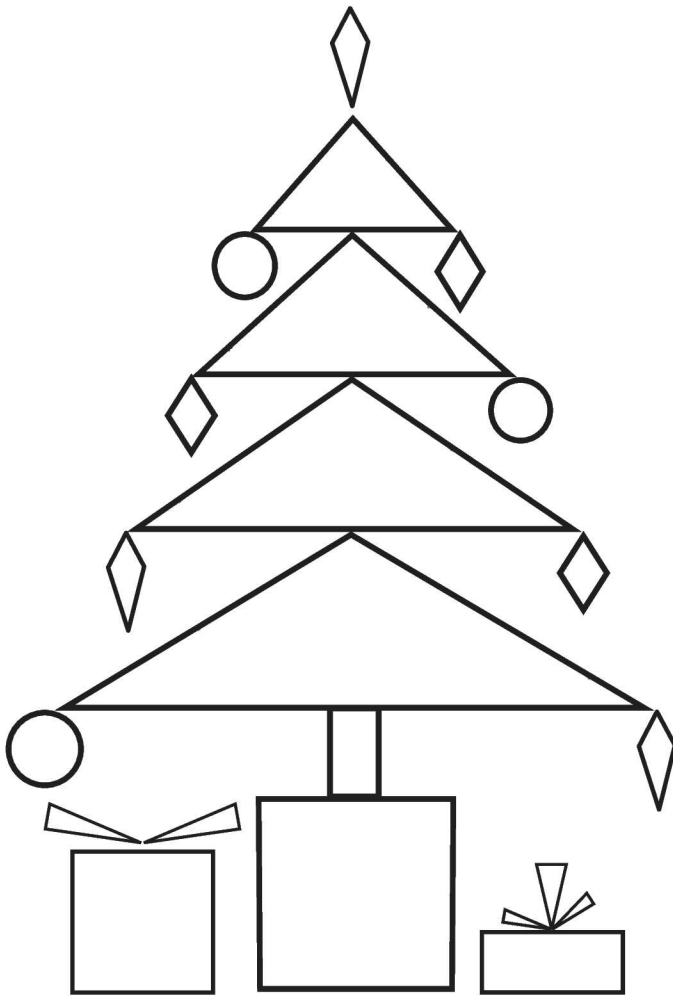

HOW TO PLAY: Players take turns. On your turn roll the die. Check the number you roll against the **KEY** to know which shape from the tree you can draw. You're only allowed to draw one shape on any turn.

For the tree: You must copy the tree from the bottom to the top – pot first, then the trunk etc., and only add the decoration-shapes to the parts of the tree you have already drawn.

For the presents: You can draw the presents on any turn but you must draw the present before you can add the bow-shapes to it.
